

Screw update when using the Sentinel Armor (34477) with LED Light Kit (34490)

If installing the **Sentinel Armor** (34477) with the **Sentinel LED Light Kit** (34490) please call or email PowerMadd (651-462-8465 or techsupport@powermadd.com) for an upgrade screw kit which consists of 4 replacement screws (H1130). Use these to replace the original 4 short plastic screws to mount the Armor in the vent hole locations shown in the photo. The upgrade screws allow for clearance for the LED light.
